

Woodard & Curran is an award-winning, dynamic, growing consulting, engineering, and operations firm serving public and private clients throughout the U.S. Our signature integration of engineering, science, and operations and our focus on client service drive results. Come share the opportunities that consistently rank our firm as one of the leaders in our industry.

Woodard & Curran, is seeking a full-time Project Manager in New Jersey, for a project located 15 miles east of Philadelphia beginning August 2010 to oversee the day-to-day operation of a water and wastewater utility serving approximately 4,400 customers. The utility consists of a wastewater treatment plant, 9 lift stations, wastewater collection system, water treatment facility, 1 MG elevated storage tank, and the distribution system. The utility staff will be 10 to 12 employees to manage the system. The Project Manager will play an active role in the coordination and communication with the Township, contractor, and engineer during construction of the new infrastructure improvements that should occur throughout the term of the contract. He or she will also work closely with other Township Departments to coordinate the on-going daily operation of the utility system.

- 10 to 15 years experience in managing complex water and/or wastewater facilities
- Must possess New Jersey licenses in all or some of the following areas: drinking water, water distribution, wastewater treatment, and wastewater collection – or ability to obtain via reciprocity.
- High School graduate or equivalent, with technical/vocational school background; College degree preferred
- Experience overseeing a budget of \$1.5 million or more
- Excellent verbal and written communication skills
- Proven track record with regulators
- Applicant must possess a valid Drivers License and a good driving record and must be able to lift or move up to 50 pounds on a regular basis
